

Georg-August-Universität
Internationales Graduiertenkolleg 1422
Metal Sites in Biomolecules:
Structures, Regulation and Mechanisms
Sprecher: Prof. Dr. Franc Meyer

IRTG Guest lectures

Winter semester 2007/2008

- 2007-10-15, 03:15 pm, lecture room GZMB-N
Prof. Alan R. Brash (Vanderbilt University, USA)
"Coral Allene Oxide Synthase and other Mini-Catalases"

- 2007-10-16, 05:15 pm, lecture room III
Prof. Dr. Sally Brooker (University of Otago, New Zealand)
"Controlled self-assembly of magnetically interesting complexes of heterocyclic ligands"

- 2007-11-13, 05:15 pm, lecture room III
Prof. Dr. Henryk Kozlowski (University of Wroclaw, Poland)
"Metallochemistry of Neurodegeneration"

- 2007-12-04, 05:15 pm, lecture room III
Prof. Dr. Dieter Rehder (University of Hamburg)
"Biologische und medizinische Aspekte der Chemie des Vanadiums"

- 2008-01-21, 05:15 pm, lecture room III
Prof. Dr. Annette G. Beck-Sickinger (University of Leipzig)
"Peptide analogues in tumor diagnosis and treatment"
