

Advanced Methods Course „Bioanalytics “ 2010
Guest Speakers

Prof. F. X. Schmid, Universität Bayreuth

„Prolyl cis/trans isomerization as a rate-determining step in protein folding and protein function“

April 27th, 17 h c.t.

Ernst-Caspari-Haus, GZMB

Prof. Dieter Oesterhelt, MPI für Biochemie, Martinsried

“From Molecules to Systems: Photosynthesis in Archaea“

April 28th, 17 h c.t.

Ernst-Caspari-Haus, GZMB

Prof. Uli Nienhaus, Karlsruhe Institute of Technology

“Fluorescent Proteins - Characterization, Optimization and Application in Advanced Fluorescence Microscopy“

April 29th, 17 h c.t.

Ernst-Caspari-Haus, GZMB

PD Dr. Ute Curth, Medizinische Hochschule Hannover

„ Analytical ultracentrifugation as a tool to study protein-protein interactions“

May 3rd, 17 h s.t.

Grosser Seminarraum, MPI für Biophysikalische Chemie

Prof. Alfred Wittinghofer, MPI für molekulare Physiologie, Dortmund

“The G domain, a universal switching module for many occasions“

May 4th, 16 h s.t.

Prandtl-Seminarraum, MPI für Biophysikalische Chemie

Host: Kai Tittmann
